# O2VAPE® Product Line 2024

## Custom **Branding** Services

### Customization Capabilities

Pantone Specific Silicone Seals • Silkscreening on Glass • Optional Locking Caps  
Heat Transfers • Laser Etching • Spot UV • Product Packaging Design • Logo Design

### Customizable Products

Haptic Feedback Batteries • Variable Voltage Batteries • All-In-One Disposable  
Button Batteries • Outdraw Batteries • Cartridges

## O2VAPE® **Traveler® Extreme CFB** All-in-One

The Cotton Free Bucket disposable is perhaps our biggest jump in heating technology to date! This design eliminates all barriers between the ceramic heating element and your oil. Faster priming and better flavor are just two of the advantages of going cotton free. You've got to try this!

### Features:

380 MAH battery capacity • Available in .5ml & 1m • Metal body • No metal center post  
Low temp Ideal for live resin & rosin • USB-C charging port  
Customizable temperature settings available

## O2VAPE® **Aero Plus™**

Building on last years success with the launch of our first cotton free bucket heating system, we've taken it a step further by incorporating that same technology into a new postless all-in one. Your oil's true color won't be obscured by any center post & you know the flavor will be on point.

### Features:

350 MAH battery capacity • 1.4 ohm  
USB-C charging port

## O2VAPE® **Traveler® Extreme** Mesh Coil

### Features:

Available in 1ml, 2ml & 3ml capacities • Metal body for increased durability  
420 MAH battery • Auto-draw or button-activated  
USB-C charging port

## Aero® **Pod** All-in-One

### Features:

350 MAH battery capacity • Available in .5mL & 1mL tanks • Fully customizable  
Ultra Slim Design • Easy top fill design • Hidden micro USB charging port

## O2VAPE® **Traveler® Extreme** All Ceramic

All ceramic construction brings out your true terpene profile!

### Features:

Thick quartz glass • Metal free design • 530 MAH high capacity battery  
Multiple tank sizes available

## O2VAPE® **Traveler® Extreme** Vari-Vape®

### Features:

350 MAH battery capacity • Variable voltage for maximum control  
Multiple Tank Sizes available • Preheat function to warm up your oil

## O2VAPE® **Traveler® Extreme** All Glass

New this year, we've added the option to customize the heat output of your disposables. If your oil runs best at a lower temperature, we can now dial that in specifically for your individual needs.

For our rosin & resin producers especially, this is a game changer!

### Features:

330 MAH high capacity battery • Multiple tank sizes available  
Micro USB charging port

## O2VAPE® **All Glass** Cartridge

Ceramic heating element & all glass body combine for the purest flavor!

### Features:

Bottom fill for increased production speed • Multiple temperature settings available  
Patented design provides durability & style  
Optimal for nearly all oil viscosities

## O2VAPE® **All Ceramic** Cartridge

### Features:

- Ceramic heating element provides improved flavor & vapor feel
- All ceramic construction helps bring out your true terpene profile
- Your oil never comes in contact with any metal surfaces

## O2VAPE® **VC** Cartridge

### Features:

- Our original award winning industry leading cartridge • Customizable intake holes for any oil viscosity
- Multiple tank sizes & mouthpieces available
- Available in stainless steel

## O2VAPE® **Cotton Free** All Ceramic Cartridge

### Features:

- Cotton free design offers our cleanest taste yet • Your oil never comes in contact with any metal surfaces
- Avoid dry fires with new honeycomb ceramic heating element • Ideal for thick oils
- Thick quartz glass housing for durability & a quality feel

## O2VAPE® **All Glass Vari-Flow** Cartridge

### Features:

- Gradual heating leads to better taste & smoother vapor • Thick quartz glass housing for durability & quality feel
- Control your experience with the adjustable airflow collar
- Ideal for high viscosity oils

## O2VAPE® Flip Ultra®

The largest battery capacity of any key fob style!

### Features:

Variable voltage settings from 2.1v-4.8v • LCD display shows puff count, battery life & voltage settings

Slide lock to prevent accidental opening & activation • Patented automatic on/off feature

Dual Lightning and USB-C ports provide multiple charging options

## 3.7V Button & Buttonless Batteries

### Features:

350 & 650 MAH battery capacity • Available in push button & auto-draw styles

Consistent draws every time • Customizable draw timer to meet state dosing requirements

## Vari-Vape®

### Features:

350, 650, & 900 MAH battery capacity • Turn dial & push button voltage options

Freedom to choose a power level that suits your style • Pinpoint voltage

## The Lil·Bitty®

- Compact design for easy vaping
- 650 MAH high capacity battery
- Variable voltage from 3.4v-4.0v
- Compatible with fast chargers

## The Decoy®

- Includes magnetic quick connect adapter for cartridges
- Discrete compact design fits in the palm of your hand
- Avoid dry fires with preheat function
- Variable voltage from 3.4v-4.2v
- Fits cartridges up to 11mm

## The Nano®

- 650 Mah high capacity battery
- Compact form factor for discreet vaping
- Variable voltage ranging from 3.4v-4.0v
- 10 minute auto shut off preserves battery life
- Designed to accommodate cartridges up to 12mm in width

## O2VAPE® Dual™

Most versatile concentrate device offering 2 different ways to consume your favorite concentrates!

### Features:

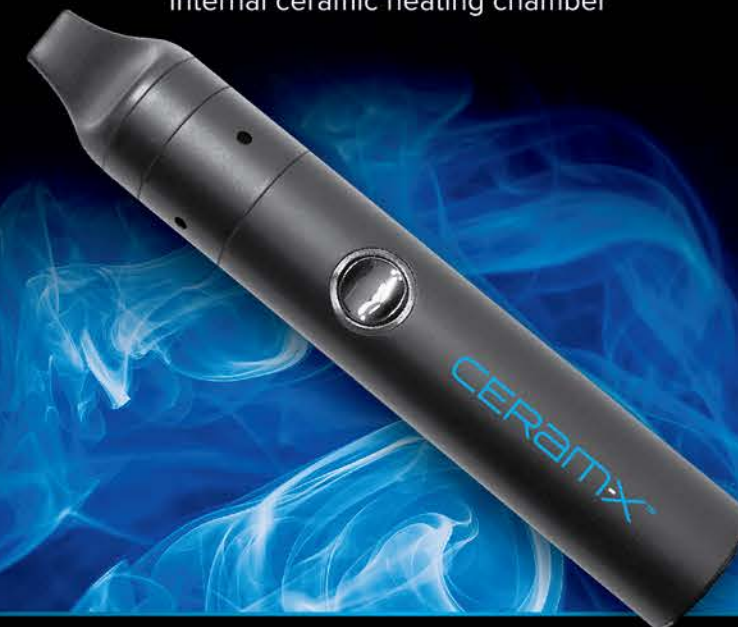

Ceramic nectar collector touch tip • Dab bucket for an on the go lifestyle  
420 MAH battery capacity

## O2VAPE® Ceram-x™ Concentrate Pen

### Features:

900 MAH high capacity battery • Heating range of 392-428\* F depending on battery life  
Ceramic heating plate self cleans easily & outlasts wire coil atomizers  
Internal ceramic heating chamber

# O2VAPE® Safety & Compliance Testing

O2VAPE® maintains a tightly controlled supply chain to ensure quality of our cartridges, batteries and all-in-ones. Our clients can trust the safety of their products and know they will confidently pass all regulatory tests. In an effort for full transparency, we publish our heavy metal tests. Check out our results and learn how you can ensure that you are getting the safest hardware for your customers.

## MET-05: HEAVY METALS ANALYSIS BY ICP-MS

| ANALYTE  | REPORTING LIMIT | LIMIT | RESULTS | STATUS |
|----------|-----------------|-------|---------|--------|
|          | PPM             | PPM   | PPM     | PASS   |
| ARSENIC  | 0.100           | 0.200 | ND      | PASS   |
| CADMIUM  | 0.100           | 0.200 | ND      | PASS   |
| CHROMIUM | 0.300           | 0.600 | <RL     | PASS   |
| COPPER   | 1.500           | 3.000 | ND      | PASS   |
| LEAD     | 0.250           | 0.500 | <RL     | PASS   |
| MERCURY  | 0.050           | 0.100 | ND      | PASS   |
| NICKEL   | 0.250           | 0.500 | ND      | PASS   |
